REFLECTIONS 2024
(Grade I to Grade VIII)

"Imagination is more important than knowledge. For knowledge is limited, whereas imagination embraces the entire world, stimulating progress, giving birth to evolution."

Albert Einstein

Dear Parents,

"Educational Fair" is one of the most prestigious and flagship events conducted at our school every year. LIS aims to provide an effective platform for students to explore, express and experience their creativity through this Educational Fair.

We are planning to organize this exhibition (Reflections - 2024) in the 1ˢᵗ Week of June 2024. This event gives all our students an opportunity and platform to showcase their inner talents on a wide variety of subjects from the academic stream as well as other areas of the child's interest (which might be away from their regular academic learning) through working models, charts, presentations, and much more.

We encourage the "Pragmatic Approach" in the teaching and learning process. Students are encouraged to hone their life skills and learn values from participating in this exhibition.

Important Information:

1. All the projects should be labelled with student name, class & section, subject and project name.
2. A small write-up about each project on an A-4 size paper is essential.
3. Students can make/present **one** project in any of the given subjects: *English, Math, Science, SST, Second language, Graded subjects.*
4. **Kindly Note**: Subject and Project allotment will be assigned by the class teacher.
5. Project topics will be provided by the class teacher by *Thursday*, **9ᵗʰ May 2024**.
6. All projects should be submitted by *Tuesday*, *4ᵗʰ June 2024.*
7. Best Projects from each category will be awarded by the School Managing Committee and the students will also be given academic points.

Best regards,

Pramod Kumar Ranwaka
Principal
